

# PUBLIC LEADER

MAYSVILLE REPUBLICAN.

FOURTH YEAR.

MAYSVILLE, KY., FRIDAY, MAY 17, 1895.

ONE CENT.

## Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can give his goods free. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

## The Continued Call

Upon this occasion for free notices has become so burdensome that we are forced to publish the following terms:

## For Notices of Suppliers.

Advertisements, notices, or other public notices, when a line for the first insertion and a business line for subsequent insertions. A customer order for a five-line notice inserted in the paper, will not be taken until the advertiser pays to the bookkeeper. But for the first time, we will accept of a bill for two months—\$1.00. When he finds it out, he will find it a "bill" and a controversy, probably by an old remedy. Now, to obviate this trouble, we will, for the first time, accept of a bill for the first insertion and a business line for subsequent insertions. Let's have a definite agreement in the contract and the termination will be pleasant all around.

## Does Not Include

Notices of Lodge meetings or Church services, which must be exacted on time.

## Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for Business Lines in this paper is 10 cents a line for the first insertion and a business line for subsequent insertions. A customer order for a five-line notice inserted in the paper, will not be taken until the advertiser pays to the bookkeeper. But for the first time, we will accept of a bill for two months—\$1.00. When he finds it out, he will find it a "bill" and a controversy, probably by an old remedy. Now, to obviate this trouble, we will, for the first time, accept of a bill for the first insertion and a business line for subsequent insertions. Let's have a definite agreement in the contract and the termination will be pleasant all around.

All matter for publication must be handed in before 9 o'clock in the morning of each day.

There was an exciting time at the K. C. D. P. yesterday afternoon. Three young men, who part their hair in the middle and are members of Mayville's 460, were going to an entertainment last night, and strange to say all three were going to take the same young lady.

Not So Sure Now.

Heretofore it has been the custom of Democrats nominees for the Legislature, who were "sure of election," to begin their term in advance to select and reserve their seats in the House. Several have been nominated, or assured of Democratic nomination this year, but they have reserved no seats, all of which goes to show that they fear there might be something in the boat of the Republicans about possible Democratic defeat this year.

## IMPORTANT QUESTION.

WHAT SHOULD BE THE ATTITUDE OF OUR CITIZENS TO THE Y. M. C. A.?

This is a very important question for consideration at the present time.

It is generally known that several of our young men have formed themselves into a Union Young Men's Prayer-meeting, looking forward to the time when they might effect an organization for full Association work.

Through the kindness of a few friends and a small membership fee these young men have struggled along, keeping open a comfortable room and supplying it with good books and books for more than a year. It is to their praise that they have stood what is known in Association circles as the "Test Prayer-meeting."

True, these prayer meetings have not been as largely attended as they should have been, yet we should not judge at all times from outward appearances, for no doubt there has been a quiet, steady work of grace going on in their own lives, to the praise and glory of God. They have had many difficulties to encounter, and possibly under the circumstances the visible results would have been much greater.

No organization can succeed without the moral support of the community; and the Y. M. C. Association is worthy of this support cannot be doubted. In other cities it has proved, by the wisdom of its management, by the conversion and development of young men, physically, socially, mentally and spiritually, that it is a most valuable and necessary support, financially and morally of all who love God and humanity.

True, it has had many prejudices to contend with and overcome. It has been charged with usurping authority and taking the place of the Church, and will be distinctly understood that the Young Men's Christian Association is not a Church, is not a substitute for the Church, is not a rival of the Church, nor is it an organization outside of the Church, but it is the Church at work, interdenominationally through her laymen, "by and for" young men. Nor is it a Club where young men meet simply to have a good time. True, there are many who are induced to become members of the Association by the reading room and gymnasium attractions, and possibly the majority of those using these privileges look upon the Association as a kind of Club with occasional religious meetings.

But all who are conversant with the work of this Association know that all secular agencies are used with a view to an end, and that is to give the young man a higher ideal of manhood and bring him in touch with Christianity.

What, then, should be our attitude to the Young Men's Christian Association? Shall it not be one of friendliness and cooperation? Shall not we who have sons and daughters, in whose welfare for time and eternity our hearts are bound up, come to the aid of these young men and recognize the importance of having a fully equipped Young Men's Christian Association in our city? It would be an ornament, an honor and glory to us.

The "ary comes up from the hearts of all. One who prays for the state. Those who are struggling with sin in the world. Oh, save them before 'tis too late."

W. O. C.

The cut worms down in Taylor county must be cleaning up the earth and all the fullness thereof, if the following advertisement printed in The Campbellsville Times-Journal is believed: "I wish to borrow one million turkeys gobblers to gobble cut worms. Hens not wanted unless they can gobble; no time for laying or setting or courting. I mean business. Breakfast, dinner and supper on the ground and more for free. Three meals a day and free lumber and ad libitum, a plurius unum. Care will be taken but no responsibility for buried crows or gorged gizzards. A splendid opportunity for hawking turkeys. Splendid vigilance is the price of a crop crop this year. Sic semper curvabitur."

## UNCLE SAM BROKE.

CALL MAY BE MADE FOR REFUNDING MANY MILLIONS LOANED YEARS AGO.

A very interesting question has been raised as to whether, in view of the depleted condition of the Treasury, the twenty-six states of the Union which in 1887 received from the General Government deposits amounting to over \$28,000,000, could not be made to refund. Early in 1888 Congress having refused to extend the charter of the Bank of the United States, found the Government in possession of between forty and fifty millions of dollars, for which it had no present need or suitable place for safe keeping. On June 30th of that year an act was passed authorizing the Secretary of the Treasury to deposit, under certain specified conditions, all of this money save \$5,000,000 with the states, on the assumption of the obligation of payment on demand.

The sum of money which each of the twenty-six states received, as stated in several annual reports of the Secretary of the Treasury, seems to have been as follows (cents omitted):

Maine	\$66,679
New Hampshire	600,000
Massachusetts	600,000
Rhode Island	1,200,170
Connecticut	74,675
New Jersey	262,729
New York	4,014,880
Pennsylvania	2,987,410
Ohio	764,870
Indiana	2,007,280
Illinois	1,021,210
Michigan	477,919
Delaware	296,731
Maryland	264,371
Virginia	3,196,467
North Carolina	1,438,197
South Carolina	477,919
Georgia	1,063,425
Alabama	699,686
Arkansas	477,919
Mississippi	382,815
Tennessee	1,638,707
Kentucky	1,638,707
Missouri	2,688,731
Arkansas	268,731
Total	\$38,101,683

In his annual report for 1885 the United States Treasurer says: "That the 'fiction' that the states were to refund, amounting to \$25,101,683 may some day become available has ceased to be held."

It is a very singular fact that the records of the Treasury Department do not show that any demand has ever been made for the repayment of this money. It seems to be the general opinion that if Congress would be necessary before steps could be taken to compel a repayment, but whether such an act will be passed through Congress is very doubtful.
